紐約花蓮慈惠堂
New York Hua Lian Tsu Hui Temple

Online Lamp Lighting Registration
How to Register

Register on your phone or computer, then pay at the temple

Scan the QR code with your phone camera, or type this address into your browser:

nytht.vercel.app

For English, tap **EN** at the top left. Tap **Larger** at the top right for bigger text.

Before you start, please have ready:

- The contact person's name, phone number and address
- For each person: **name, gender and date of birth** (Western or lunar calendar; the birth hour is optional)
- Which lamps each person would like: Lamp of Blessing, Lamp of Wenchang, Lamp of Annual Taisui, Lamp of Wealth and Fortune ($120 each; you may choose more than one)

Each form is for **one household** (family members at the same address). Relatives at other addresses should fill in their own form.

How to register

1 Tap “Register for lamps”

On the home page, in the **Lamp Lighting** box, tap **Register for lamps**.

It shows this year's lamp lighting and the price per lamp.

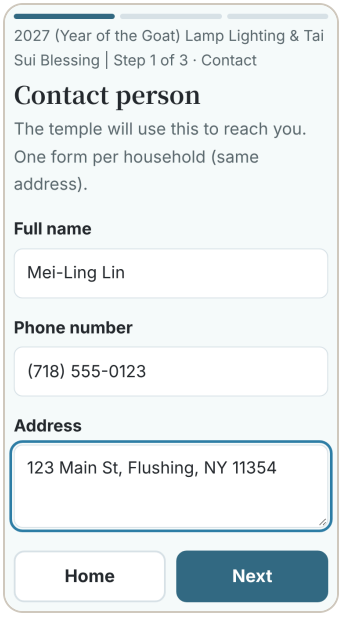

2 Contact person

Enter the contact person's **name, phone number and address**. The temple uses these to reach you.

Then tap **Next**.

The bar at the top shows which step you are on (3 steps in all).

3 Each person lighting a lamp

- **Full name**: Chinese name if you have one, otherwise English. If the first person is the contact person, tap **Same as contact**.
- **Gender**: tap Male or Female.
- **Date of birth**: choose **Western calendar** or **Lunar calendar**, then the year, month and day. For a lunar leap month, tick **Leap month**. The birth hour can be left blank.
- The **zodiac sign and age** appear automatically — please check they are right.
- If the sign is **advised to light the Taisui lamp** this year, a reminder appears; tap **Add Lamp of Annual Taisui** to tick it.
- **Lamps**: tick one or more lamps.

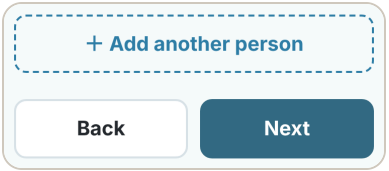

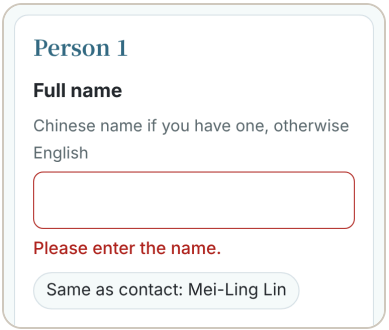

4 More family members?

Tap **+ Add another person** and fill in Person 2 the same way. Tap **Remove** to delete a person added by mistake.

When everyone is done, tap **Next**.

If something is missing, the box turns red with a note telling you what to fill in.

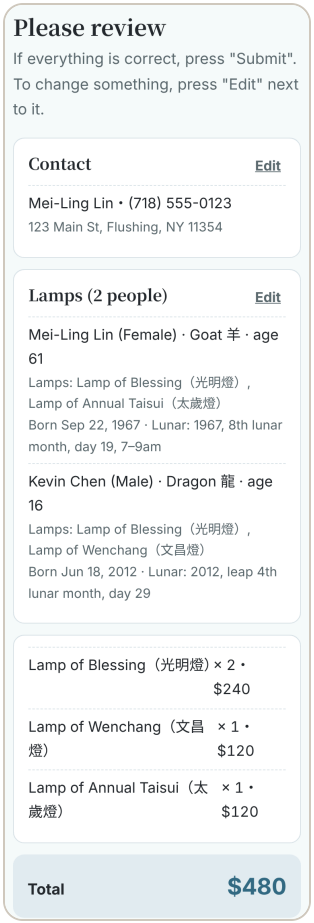

5 Review and submit

You will see everything you entered, the number of each lamp and the **total**.

To change something, tap **Edit** next to it.

You can leave a message for the temple under **Notes**.

When everything is correct, tap **Submit**.

6 Your registration form

After submitting, your **registration form** appears, showing:

- Your **registration number** (e.g. L261108-003) — please write it down
- Each person's **lamp numbers** (e.g. Lamp of Blessing G010104)
- The **amount due**

If a lamp says **Waitlist**, that lamp is full; the temple will arrange it and contact you.

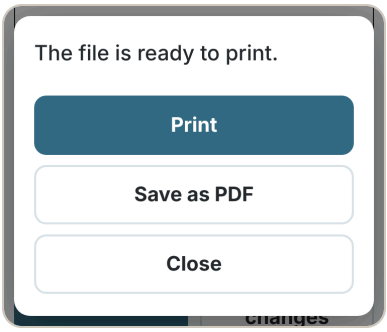

7 Print or save it

Tap **Print form** and wait a few seconds. A small window appears:

- **Print**: print it now. On iPhone, iPad and Android, a share menu opens first — choose **Print** in that menu.
- **Save as PDF**: save it on your phone or computer to print later.

No printer? No problem — take a **screenshot** or write down your registration number. Show it at the temple and a volunteer will print it for you.

8 Pay at the temple

Bring your form (or your phone screen) to the temple and **pay by cash or check**.

A volunteer will sign the form and cut off the **receipt** at the bottom for you.

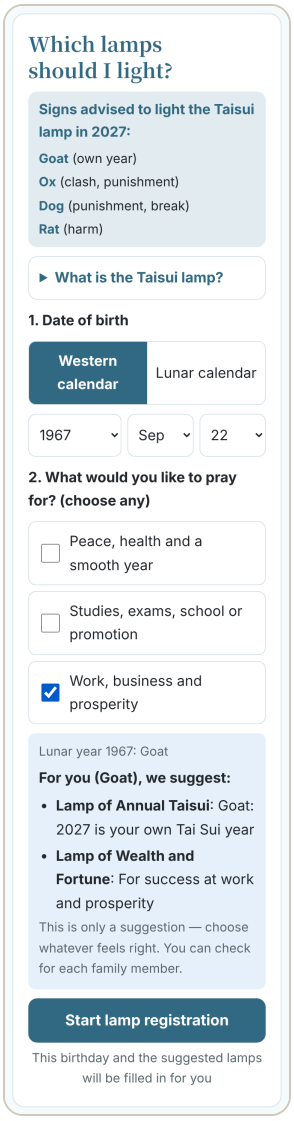

Please keep the receipt. From **the 9th day of Lunar New Year** (the date is printed on the receipt), use your **registration number to collect your lamp cards**. If you lose it, just give your phone number and we can look it up.

Not sure which lamps to light?

The home page has a card called **Which lamps should I light?**

- At the top it lists the **zodiac signs advised to light the Taisui lamp this year**. Tap **What is the Taisui lamp?** to read more.
- Choose **Western** or **Lunar calendar**, enter a date of birth, and tick what you would like to pray for (peace and health, studies, work and prosperity).
- It will suggest **which lamps to light** and why.
- Tap **Start lamp registration** — the birthday and the suggested lamps are filled in for you.

These are only suggestions; choose whatever feels right. You can check for each family member.

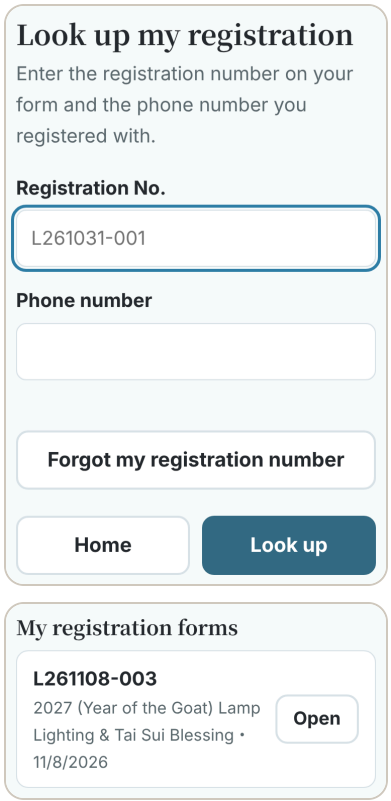

Looking up, changing or adding

On the registration website, tap **Look up / change my registration**, enter your **registration number** and the **phone number** you registered with, then tap **Look up**.

- You can see your lamp numbers again and print your form again.
- **Before paying**, tap **Make changes** to edit your registration.
- **After paying**, to **add lamps or people**, tap **Add more lamps (new form)**. Your contact details are filled in; just add the new people and lamps. You will get a new registration number and pay for it at the temple.

If you registered on the same phone, **My registration forms** appears at the top of the home page — tap **Open**.

Common questions

I forgot my registration number / lost my receipt.

On the look-up page, tap **Forgot my registration number**. Enter the phone number you registered with and the name of anyone on the form, written the same way as when you registered. When collecting lamp cards at the temple, you can also just give your phone number.

I had to stop halfway. Is my form lost?

No. It is saved on this phone or computer. Tap **Register for lamps** again to continue, or **Start over** to begin again.

It says there is a network problem when I submit.

Your form has not been sent yet, and nothing you entered is lost. Wait a moment and tap Submit again — it will not register twice.

Can I register another household too?

Each form is for one address. When you finish one, tap **Fill in another form** for the next household.
